DAVID BIRCH TAKES HIS LIFE

SIGNATURE NOT THAT OF FRAME'S

Special Judge Wilson in Circuit Court Makes Ruling in Suit to Collect Note For \$385.

REFUSES TO GIVE REASON

Buys Three-Ounce Bottle of Carbolic Acid While on Way to Parent's Home This Morning.

David Birch, living at 608 West Ninth street, committed suicide this morning about ten o'clock at the home of his father, I. N. Birch, in Jersey City, by drinking the contents of a three-ounce bottle of carbolic acid. The reason for his act is not known but is believed by his family to have been caused by despondency.

In deciding for the defendant Judge Wilson virtually decided that the signature to the paper held by the late Mr. Sexton was not that of Mr. Frame. The supposed note was found in the effects of Mr. Sexton after his death had been made in 1907. The amount was for \$385 and with interest from this date, the demand in the suit was \$750.

Mr. Frame denied ever giving Mr. Sexton a note and maintained that the signature was not his. Several persons in positions to know the signature of William Frame testified that the signature to the note was not that of Mr. Frame. Among those who testified that the signature was not that of Mr. Frame were Joseph L. Cowing, Miss Anna Bohannon, Earl H. Payne and Norm Norris. Mr. Norris exhibited about forty receipts from Mr. Frame signed by him and the signature on the note did not resemble those on the receipts. Mr. Norris is a renter of Mr. Frame and the receipts were for rent money.

The attending physician was unable to do anything for him and he died about ten o'clock. The physician stated that death was very quick considering that the poison was carbolic acid. Mr. Birch left home early this morning, and that he had planned to end his life is shown by the fact that he purchased the carbolic acid at a local drug store while on his way to his father's home and took the poison shortly after he arrived there.

It was intimated that Birch had trouble with his wife before leaving home but this is denied by her and she stated that he apparently was in good humor when he left this morning. Mrs. Birch was his second wife and one of his brothers stated that he had grieved for many years over the death of his first wife several years ago. Besides his widow, he is survived by five little children.

Mr. Birch had been employed at the Park factory off and on for the past four years and yesterday went home, stating that he did not feel well. It will be recalled that a little son of Mr. Birch lost his foot when run down by a mower last summer at the Bruce Graham farm northwest of the city. Mr. Birch is also survived by several brothers and sisters.

DEATH WAS ACCIDENTAL

Coroner Makes Finding in the Greely Ferguson Case.

Coroner Barnett, this afternoon, returned his verdict on the death of Greely Ferguson, which occurred on the morning of Feb. 8, when the small house in which he was sleeping in at the county poor farm burned. The coroner in his verdict states that in his opinion the fire which resulted in the death of Ferguson was accidental. The coroner states that it was necessary to keep him in the house for the protection of himself and others and that when the fire started Ferguson was unable to get out and perished in the flames.

Alva Johnson has moved from the Wilbur Stiers farm north of town to the O. F. Guffin farm near Brandon station, Posey township.

"DRYS" PLAN A BIG RALLY DAY

Sunday, February 28, Will be Replete With Meetings, and Ministers Will Exchange Pulpits

MEN TEACHERS TO EXCHANGE

Special Speakers Coming to Address Men's Big Meeting and Women's Big Meeting—Mass Meeting

Sunday, February 28, a week from today, will be local option rally day in Rushville, it was announced today by the chairman of the publicity committee of the "dry" organization which has been formed to wage a fight against the "wets" who, it is believed, will file a petition for a local option election before the commissioners hold their regular March meeting the first Monday in March.

The ministers will exchange pulpits that day; teachers of the Men's Bible classes of the Sunday schools will exchange classes, a men's big meeting and a woman's big meeting will be held in the afternoon and at night a mass meeting will be held.

Judge Charles F. Malsberry of Cincinnati, O., will be the speaker at the men's big meeting. He is a gifted speaker and is acquainted with the subject which he will discuss. The meeting will be held at St. Paul's M. E. church at two o'clock and Wagoner's orchestra will play.

The women's big meeting will be held at the United Presbyterian church at two o'clock in the afternoon and the address will be made by Mrs. Elizabeth Stanley. She is a woman of exceptional ability and one whom every woman in Rushville will profit by hearing, it is announced.

She has been giving all of her time to Purdue university lecture work this winter at institutes in her endeavor to better rural living conditions.

In the evening the mass meeting will take place at seven o'clock at the Main Street Christian church. The ministers of the city will all speak at that time and special music will be provided.

The ministers will exchange pulpits in the morning in the following manner: the Rev. A. D. Batchelor of St. Paul's M. E. at the First Presbyterian; the Rev. C. M. Yocom of the Main Street Christian at the St. Paul's M. E.; the Rev. D. Ira Lambert of the First Presbyterian at the Main Street Christian; the Rev. S. G. Huntington of the First Baptist at the United Presbyterian and the Rev. A. W. Jamieson of the United Presbyterian at the First Baptist.

The teachers of the men's class, in addition to teaching the classes where they are assigned for this special Sunday, will make ten-minute talks before the Sunday schools concerning the topic that is to interest the churches. The assignments for the men's teachers are as follows: Douglas Morris of the First Presbyterian at the First Baptist; Judge Will M. Sparks of St. Paul's M. E. at the Main Street Christian Century class; B. F. Miller of the Main Street Christian at St. Paul's M. E.; J. H. Scholl of St. Paul's M. E. at the First Presbyterian and E. B. Thomas of the same place at the United Presbyterian.

U. R. K. OF P. DRILL. The members of U. R. K. of P. No. 35 are requested to meet at Castle Hall tonight at eight o'clock for drill practice. A "pitch-in" lunch will be served after drill.

There will be a box social at the Red Men Hall next Monday evening. Come and have a good time.

WOULD CHANGE LOCAL DISTRICT

New State Reapportionment Bill Places Rush County With Franklin and Fayette County.

TO ELECT STATE SENATOR

Rush County is Still Entitled to One Representative, Under Terms of New Measure.

Under the terms of a reapportionment bill introduced in the lower branch of the state legislature in Indianapolis late yesterday afternoon, the state senatorial district would be changed, if the bill becomes a law.

Rush, Hancock and Fayette counties now form a district which elects one state senator every four years. The reapportionment bill takes Hancock county from this district and places it with Hamilton and Madison counties, thus forming a new senatorial district, and supplants Hancock county in the district in which Rush county now is a part with Franklin county.

Republicans here say that it makes very little difference from the Republican viewpoint whether the senatorial district is changed or left the same as it is now. Hancock and Franklin counties both have good size Democratic majorities, either one generally large enough to overcome whatever slight Republican majority there might be in Rush and Fayette counties.

No change is made in regard to Rush county's representation in the lower house of the legislature. Rush county would still be, if the bill became a law, entitled to one representative as it is now.

Although Republicans have not been given opportunity to study the bill carefully, some of them profess to see in the measure, taken as a whole, a decided gerrymander.

After the bill was introduced, Senator McCormick, it is said, was surprised to learn that a reapportionment measure had been presented in the House, saying that he believed it was generally understood that all redistricting was to depend on the report of his committee, and that the Senate and House Democrats would confer on the report and make it a caucus measure.

Representative Benz, as chairman of the House committee on reapportionment, asked the bureau of legislative information to work out a scheme of reapportionment based on the enumeration of last year, and it was this bill that he presented yesterday. He said that he had no intention of offering it as a party measure.

The new unit of voters for senatorial district is 15,800, and for representative districts half that number. In the Benz bill all joint senatorial districts except two are changed. Posey and Gibson counties form a district, as at present, and Wayne and Union another district.

VOLLMER THE CHOICE.

Indianapolis, Feb. 18.—A "man with a meal lunch" drew his friends aside in the statehouse today and said he had a confidential tip that William H. Vollmer of Vincennes, former state treasurer, had been elected upon as the next Democratic state chairman by the Democratic organization.

KERN IS SILENT.

(By United Press) Washington, Feb. 18.—Senator Kern or Indians declined today to comment on the action of the Indiana senate in defeating the statewide primary plan.

WHEAT HAS SOLD FOR \$3 A BUSHEL

High Prices For Last Fifty Years Show Present Conditions Have Been Equalled Before.

MANY TIMES MUCH HIGHER

Other Grain and Live Stock as Well Soared in 1867 and 1868, Records Indicate.

Comparative high and low prices for wheat during the last fifty years reveal that there have been many occasions when grain, especially wheat, was much higher than it is now. At other times in the history of the United States consumers have had to pay much more to get flour. Some high prices of the past will be very enlightening to the present generation.

In the early part of May, 1867 spring wheat flour sold at wholesale prices on the Chicago market at \$12.50@\$15.00 per barrel and white winter wheat flour at \$16@\$18.50. Retail prices were about \$1.50 to \$2.00 per barrel higher.

Winter wheat flour from Nashville, Tenn., sold for \$18.50 and plant's extra from St. Louis at \$18. per barrel wholesale and \$20 retail. During the first ten days of May, 1867 spring wheat sold in round lots at Chicago at \$2.70@\$3.00. One car on the track sold at \$3.05 and one car at \$3.10 in bags delivered. One lot of 5,000 bushels sold at \$2.80 the last half of May.

A Chicago miller sold 20,000 bushels of choice milling wheat to an interior Illinois farmer for \$60,000. Gold at that time was about 135@136, which would make the relative price on a gold basis about \$2.20.

Bran sold at that time at \$35.00@\$37.00 per ton and corn meal, according to quality at \$44.00@\$57.50 per ton. In November, 1864 mess pork sold at \$44.00 a barrel for cash and government certificates and in September 1865, lard sold at \$30.00 per hundred pounds. Hams were salable at 20@25 cents per

IS FRIENDLY TO UNITED STATES

German Reply to American Protest Against Submarine Blockade is Made Public Today.

IT IS FIRM REITERATION

Action in No Way Directed Against Commerce of Neutrals, The Note Explains.

(By United Press) Berlin, (Via Amsterdam), Feb. 18. The text of the German reply to the United States protest against the submarine blockade was made public today and it is, as expected, a firm reiteration of its protest against English methods. In tone, the answer is especially friendly to the United States, but it is carefully set forth that Germany took the steps she did only after mature deliberation and because the English measures "are in violation of the accepted principles of international law."

The German government is declared to be in accord with the United States; that it is in a high degree desirable to avoid misunderstanding which might arise from the measures announced by the German admiralty.

"This action is in no way directed against the commerce of neutrals," the note says, "but represents solely a measure of self defense imposed on Germany by her vital interests against England's methods of warfare."

"The German government," explains the note, "feels itself obliged to point out with the greatest emphasis that a traffic in arms estimated at many hundreds of millions between American firms and Germany's enemies is going on. Germany fully comprehends that the practice of right and the toleration of wrong on the part of neutrals are matters absolutely at the discretion of neutrals and involve no formal violations of neutrality."

WOULD BE UNNEUTRAL ACT.

(By United Press) Washington, Feb. 18.—An embargo by the United States on the exportation of arms to belligerent nations would be a completely unneutral act, President Wilson today told a committee of women who presented a petition with 28,000 signatures.

NOT TO USE WARSHIPS.

(By United Press) Washington, Feb. 18.—No United States warship will be sent at present to Germany's "death zone" around the British Isles. Secretary Daniels made it clear today that he was not considering using them either to convoy American merchantmen or for general protection outside the zone.

ARRESTED ON GRAND JURY INDICTMENT

Hubert Bradley is Brought Here Today From Madison County For Selling Mortgaged Property.

MORTGAGED \$400, SOLD \$30

Hubert Bradley, of near Madison, was arrested yesterday by the sheriff of Jefferson county and brought here this morning to answer to the charge of selling mortgage property returned against him in a grand jury indictment. This is the second of the three previous indictments returned by the present grand jury. Bradleys bond was placed at \$250 and at a late hour today he had been unable to obtain a bondsman.

Bradley formerly lived in Anderson township and it is alleged in the grand jury indictment that he sold a corn shredder to Dora Jackman for \$30, which was mortgaged to Hallmuth and Neinaber. It is stated in the indictment that the mortgage was for \$400 and that he sold the outfit to Jackman for \$30 contrary to the law governing mortgage property.

Sheriff McKay of Jefferson county brought Bradley to this city.

The New, New Year

In a merchandising way February is New Years throughout the land.

Many retail businesses begin their fiscal year on that date—and in a general way all are "in the market."

That means that new goods begin to flow into the stores and producers are forced to greater headway.

All signs point to a better year next year than last year.

Business is optimistic. The clouds are lifting.

It will be a good year for those who advertise.

The time to begin is now.

\$3000.00 FIRE PREVENTED

Read This Letter:

"Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pumps and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on 'fire protection' that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect.

Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

AN OLD RECIPE
TO DARKEN HAIR

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and glossy at once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Amusements

The Mystic will show a two act Lubin drama "Out of the Past" for the first picture tonight. Justina Huff and Joseph Smiley are featured and it is said to tell a dramatic story. The other is a comedy entitled "A Matter of High Explosives." William Wadsworth is featured in this Edison comedy. Tomorrow night the two reel feature "Every Inch a King," will be shown. Francis X. Bushman is featured. Earl Robertson will appear here tonight.

The Princess will show a two reel drama "The Mystery of the Yellow Sunbonnet" for the first picture tonight. Alice Hollister and Mary Millarde are featured and it is said to be a thrilling drama. It is a story of adventure. The other is an exciting railroad drama entitled "The Stolen Engine." Helen Holmes is featured. Tomorrow matinee and night the Paul J. Rainey African hunt pictures will be shown. The picture is an educational subject and almost every known wild animal is shown in the pictures.

The Gem will show a two reel Victor drama, the third of the "Terrance O'Rourke" serial for the first picture tonight. An exciting duel is one of the big scenes of this thrilling drama. J. Warren Kerrigan and Vera Sisson are featured. The other is a comedy entitled "Fido's Dramatic Career." Tomorrow night the two reel feature "The District Attorney's Brother" will be shown. Grace Cunard and Francis Ford are featured.

McIntyre and Heath will be the attraction at the Murat Theatre Friday and Saturday February 19-20 with Matinee Saturday in a revival of the most successful of the various genuinely funny musical comedies in which they have starred during their long and happy career as a team of black-face entertainers "The Ham Tree," under the management of John Cort.

The Ham Tree is by George V. Hobart with lyrics by William Jerome and music by Jean Schwartz. These gentlemen have given to the book and score much that is new and novel for this season's persensation. The story concerns principally the misfortunes that strew the path of Henry Jones, an optimistic negro minstrel, and Alexandra Hamptonton, a pessimistic coon whom the former lures from the comfortable surroundings that attend the servant of a small town livery stable. Jones is in need of "talent" for a minstrel show and Alexandra falls under the spell of the many promises of fame and fortune that await him under the glow of the limelight.

From this point the action of the play sets forth the many obstacles that prove to Alexandra he is born to one calling, the same being quite the reverse to that of a footlight favorite. "The Ham Tree," is in three acts and four scenes, showing the Travelers' Rest a country hotel in Marion, S. C., a water tank on the P. D. Q. Railroad, near Dover, Del., a wood near the railroad track, and a drawing room in Mrs. Nicklebacker's Fifth avenue Palace. Mr. McIntyre plays the part of the livery stable attendant, while Mr. Heath's character is that of Henry Jones. These stars are surrounded by a large company of principals and what is said to be the best dancing chorus of youthful girls and boys on the American stage.

HE BLAMES SUSPENDERS

(By United Press)

Philadelphia, Feb. 18.—After serving three weeks in the House of Correction, sad-yed George Green today swore he would never wear another pair of suspenders.

While stealing a ride on the roof of a freight car, George slipped and found himself dangling in mid-air held by his suspenders. A passing policeman stopped the train and "pinched" him. He still has nine more weeks to serve, but warns his keepers never to mention suspenders to him.

Keeping Colds Away

People who have colds, according to the U.S. Public Health Service are suffering from an attack of germs which they carry in their own mouths and throats. These have been permitted to reside there in a state of armed neutrality between the germs and the body defenses, until fatigue, emotion, intemperance over-exertion, or sudden chill, temporarily reduces the integrity of the body's defensive agents. This produces the aggregation of symptoms known as a cold. Colds are really very serious matters, and should never be treated lightly. If

the body's resistance to one kind of disease germ is lowered, it is quite easy for other germs to gain a foothold and spring into activity at such a time. The infection which has produced a cold may extend to other parts of the body, and middle-ear disease and deafness may ensue, or a remote joint may be infected, thus causing a lowered efficiency throughout life. Many of the cases which are diagnosed as rheumatism are merely the chronic poisoning which results from the continued growth of the same germs which produce colds. Since colds are induced by a lowering of the bodily efficiency, it is seen that they may be avoided by the maintenance of the bodily processes in a good condition. This means the observance of the rules of hygiene, adequate food, avoidance of excesses, the securing of sufficient sleep and the like. Above all, the teeth should be kept in good condition and the mouth kept clean.

It is the duty of persons who have colds to take every precaution against transmitting them to others. The agency in the transmission of colds from one person to another is the sputum and this transference may occur directly by sneezing, coughing, or expectorating. Some one has called the cold the strap-hangers disease because of the frequency with which it is contracted in overrowded street cars. The common handkerchief is a great transmitter of disease. Persons with colds should either destroy the handkerchiefs which they use or sterilize them by boiling them. If you do not want to give your cold to somebody else, hold your handkerchief or your hand over your face when you cough or sneeze, and do not indulge in promiscuous spitting.

If you do not wish to contract a cold from a person who has one, avoid intimate personal contact with him. In the old days they used to hang asafetida around the schoolboy's neck in order to protect him against colds and this did to a certain extent perform the function for which it was designed, because the odor of asafetida is such as to discourage close personal contact. A little cold is a dangerous thing. Many a case of tuberculosis is dated from a neglected cold. Keep up your bodily defenses and avoid the careless person who is acting as a chronic distributor of colds.

Connecting up With Job.

Says W. H. Blodgett in the Indianapolis News:

For years and years and years, also a few nights, Fon Riggs, of Rushville, has thumped the bass drum and carried the torch in political processions. He has spoiled numerous suits of clothes with coal oil and his hats have become offensive from refined petroleum. And he never had an office until now. Being a Republican he would not accept office but he thought he would like to find out how it feels to have a job under a Democratic administration. So he accepted the position of inheritance tax collector. He worked at it with his well known skill and ability and was getting along the finest in the world until in a fit of frenzied jealousy Senator Yarling introduced a bill to abolish that office. Mr. Riggs arrived in town last night to see about it.

"It is the only office I ever held," said Mr. Riggs sadly, "and just about the time I am getting used to official life Bill Yarling gets mad and wants to abolish the office."

"Well, don't you care," soothed a friend, "it is not much of an office, anyway."

"What's the reason it isn't?" exclaimed Mr. Riggs. "It pays \$175 a year. I guess that is something."

And besides it's a danged outrage on Bill Havens, too."

"What has Bill Havens got to do with it?" inquired the astonished friend.

"Bill is my deputy and gets half the salary."

"Why should Bill be in on it?" again asked the friend.

"Why, you see, Bill helps me think and I have to reimburse him for his work, don't I?"

WILL NOT OPPOSE WOMEN'S MEASURE

Thos. Taggart, Decared he Will do Nothing to Prevent Suffrage Bill.

HIS ATTITUDE MUCH SOUGHT

(By United Press.) Indianapolis, Feb. 18.—National Committeeman Thomas Taggart, leader of the party that has the majority in the Indiana legislature, will not oppose the Maston-Rue bill to give partial suffrage to women, which is pending in both houses.

"Do you favor the passage of the bill?" he was asked today by the United Press.

Mr. Taggart pondered a moment and said:

"I shall do nothing to oppose or prevent it."

The attitude of Mr. Taggart to the bill has been a matter of some concern to women suffragists. They have called on him in an attempt to interest in their measure.

AMENDMENTS WERE ON SPECIAL ORDER

Proposed Change in Basic Law of State Was Set For Consideration in Senate Today.

FIGHT ON ONE ESPECIALLY

(By United Press.) Indianapolis, Feb. 18.—The senate was prepared today to consider one by one the twenty-two proposed Stotsenberg amendments to the constitution, when they came up as a special order of business.

Democratic Floor Leader VanNuy said he believed the sentiment of the majority was that most of these amendments should be adopted. If they are adopted by this legislature, they will then go to the people at the next general election for final adoption.

"The biggest fight will be made against the one providing new restrictions for voting," said Van Nuy. "It provides that males only shall vote and is considered unfriendly to the suffragists. There will be a fight against the tax amendment, giving the legislature power to classify different kinds of property for taxation."

VanNuy said he believed the other amendments would pass, especially the one providing for compulsory compensation.

LONG DEBATE EXPECTED

Appropriation Bill is Submitted to the House Today

(By United Press.) Indianapolis, Ind., Feb. 18.—Representative McGonagle of the legislative visiting committee, which today submitted its appropriation bill to the house committee of the whole, said he expected long debates but hoped the bill would go through as drafted.

"The girls industrial school at Clermont, the Jeffersonville reformatory and the Knightstown Sailors' and Soldiers' Orphans' Home will appeal for larger appropriations," he said.

ITS REPORT WAS DUE LATE TODAY

Committee on Workman's Compensation Bill Will Favor Amendment Outlined Earlier.

JUST WHAT IT WILL PROVIDE

Would Allow Children to Receive Benefit in Case Widow of Dead Workman Marries

(By United Press.)

Indianapolis, Feb. 18.—Representative Sare chairman of the Judiciary A committee, said today that the administration measure for workman's compensation would be reported to the house late today with the amendment outlined earlier by him. The same bill as amended will be reported to the senate and the plan is to have both houses pass them soon.

The proposed amendment most pleasing to labor would raise the rate of compensation from 50 per cent. to 55 per cent. of the daily wage. Labor has asked 66 2/3 per cent.

Sare proposed to amend the bill so that the children of a killed workman shall receive the share having been received by the widow in case the widow marries. If the mother is divorced from fault of her second husband, then she would again receive the compensation, according to Sare's suggestion.

The bill provides that if the injured workman does not report his injury properly before the expiration of six months he is not to receive compensation. Sare would amend it to include the words, "for good cause," thus allowing the workman some lee way.

Labor's name demand—that state insurance be provided—is not complied with in the bill. Employers may insure with whomever they please. The bill provides a state board of awards of three persons. Every employer and employee would be presumed under the law unless they had filed previous to the accident a statement to the contrary. The defenses of the employer under the liability act are removed making it likely that employers would come under this law.

Sare and others expect this bill to become the state compensation law.

FIGHT GAME IN CUBA GOES ON

Natives Take to Sport and Wallop
May be Handed to New York
as Boxing Center

CHANCE FOR EASY MONEY

Welsh Announces That he Will Fight
All Comers Over Twenty Round
Bouts in Future

BY HAL SHERIDAN

(Written for United Press.)

New York, Feb. 18.—New York as a boxing center is going to be handed a K.O. wallop in the near future if the plans of Havana promoters do not fall through.

Returning impresarios bring stories of how the natives down there are simply crazy about the glove game and are willing, yet anxious to shove their shekels through the box office window with astonishing regularity to see the boys perform. Added to the patronage of the natives, they say, is that of a great many Americans sportsmen who spend their winters there.

Be that as it may, it's a cinch if the promoters there keep offering the kind of money they have started out to, these United States are going to be a barren of pugs as Cleveland is of ball-players.

In the Young Ahern-Willie Lewis battle a few days ago, the first fistic struggle staged in the new campaign, each received \$2,000. If the promoters can pay this class of boxers two thousand per each and get away, what, oh what would they pay a pair of champions or real contenders.

Eastern fighters are already beginning to prick up their ears. That two thousand noise listen awfully sweet to their battered ears and if the promoters keep it up Cuba is going to be as full of boxers and alleged boxers as Ben Johnson is of expletives against the Feds.

H. Connolly Pollack, whose chief aim in life seems to be keeping his champion, Freddie Welsh, from getting into a decision fight, is out with a new announcement. He says after Welsh and Willie Ritchie settle their little dispute at Madison Square Garden March 11, he is going to send Freddie Welsh against all comers in twenty-round decisions battles anywhere the promoters will offer enough. Kale, promises and announcements to this effect have emanated from Welsh and his manager at regular intervals since the Welshman won his crown, but up to date they have managed to side step all encounters where there was a chance for the Britisher to drop his title.

WHITE SOX OFF FOR CALIFORNIA

Real Harbinger of Spring Seen in Chicago When Comiskey's Crew Leaves for Training Camp

OVER ONE HUNDRED IN PARTY

Great Things Expected of Rowland, Bush League Pitcher—Collins Expects Good Year

BY JAMES O'DEA

(Written for United Press.)

Chicago, Feb. 18.—Chicago caught a real harbinger of spring in the act today when Charley Comiskey's personally conducted crew steamed out on a special train for the Paso Robles, California, training camp. There were 100 or more in the party. They included ball players, some who merely are classified under that name, personal friends of the Old Toman, to the number of sixty or seventy, and several Pacific Coast League players enroute to join their respective clubs.

Very much among those present was a young man named Clarence Rowland, the erstwhile bush leaguer, who is to lead a big league crowd this summer. Rowland got almost as much of a send-off from fans who went to the depot to see the bunch off, as did the beloved Comiskey himself. If he makes use of 87½ percent of the good wishes and hopes for success that he carried away with him, he'll make any of the White Hopes in the A. L. break a record to snap the tape ahead of the White Sox.

Great things were promised for Rowland today. The stay-at-homes predicted exactly what the Chicago Americans need to put them out in front next spring. South-siders believe Rowland is going to develop into another Kid Gleason—incidentally, Kid Gleason was fired this winter.

Another one of prominence among those present today was One Hundred Eddie Collins, second sacker, of note and once of the City of Philadelphia. Collins declared he is in great shape and ready for the best game of his career, etc.

WILL END HOT FIGHT AT HUNTINGTON

Appointment of Postmaster There Causes Some Battle Among Various Elements of Party

DELEGATIONS TO WASHINGTON

(By United Press.)

Huntington, Ind., Feb. 18.—When the postmaster for Huntington finally is appointed it will end a long battle. The candidate are L. G. Trixler who has held city and state offices; David Marx, a clothing merchant, long in the harness for the Democratic party; Harno Duncan, a young and active Democrat, and Daniel Awker, a railway mail superintendent.

The big fight has been made against Trixler, who has been named as a member of the Taggart organization. Marx has been an anti-organization man, and has seemed all along to have been giving Trixler the hottest race.

The appointment has been one of the most vexing problems Congressman George W. Rauch has had to settle. Since the election last fall the race has been hot every day, and many delegations have gone from Huntington to Washington to see Rauch and the two Indiana senators in regard to this question.

SIGNAL PREVENTS WRECK

Serious Mishap Believed to Have Been Avoided on C. H. & D.

The automatic block signals on the C. H. & D. railroad are believed to have prevented a serious wreck Tuesday night. The signals were responsible for the flagging of east bound freight train No. 406 at Mauzy. Conductor VanScocoy and Engineer Payne went ahead of the train and found a broken rail at the bottom of a steep grade near Glenwood. It was stated that the rail was so damaged that it would not have withstood the weight of the train.

The funeral services of Miss Lydia Sampson whose death occurred at Marion were conducted at the Arlington Christian church Wednesday afternoon by the pastor, Rev. D. L. Milligan. Burial in Arlington cemetery.

Peculiar After Effects of the Grip This Year**LEAVES KIDNEYS IN WEAKENED CONDITION**

Doctors in all parts of the country have been kept busy with the epidemic of grip which has visited so many homes. The symptoms of grip this year are often very distressing and leave the system in a run down condition, particularly the kidneys which seems to suffer most, as almost every victim complains of lame back and urinary troubles which should not be neglected, as these danger signals lead to dangerous kidney troubles. Druggists report a large sale on Dr. Kilmer's Swamp Root which so many people say soon heals and strengthens the kidneys after an attack of grip. Swamp Root is a great kidney, liver and bladder remedy, and being an herb compound, has a gentle healing effect on the kidneys, which is almost immediately noticed in most cases by those who try it. Dr. Kilmer & Co., Binghamton, N. Y., offer to send a sample size bottle of Swamp Root, on receipt of ten cents, to every sufferer who requests it. A trial will convince any one who may be in need of it. Regular size bottles 50cts. and \$1.00. For sale at all druggists. Be sure to mention this paper.

ATTACKS NEW CHARITY PLAN

Organized Body Withdraws Support
Because No Attempt Was Made
to Find Work For Beneficiaries.

PLACE KEPT UP BY DONATIONS

Franklin Lawrence Allows Girls to
Keep Fine Clothes and Caters
to the Beauty Types.

BY CARLTON TEN EYCK.
(Written for United Press.)

New York, Feb. 18.—The Utopian dream of social workers sociological experts—an organization that really extends charity without investigations an inquisitorial subjection of its beneficiaries—is Franklin Lawrence's statement of the aims and purposes of the White Cross committee.

But Lawrence prefers to help pretty girls—the prettier the better—and his motives have been questioned, leaving him in hot water up to his neck. But Lawrence is confident of paddling out and convincing a somewhat incredulous public that the White Cross home—a brownstone structure on West Fifty-first street, is just what he terms it to be, a refuge for those who most need help.

The White Cross committee has been plastered all over the first pages of New York newspapers because Mrs. John Purroy Mitchell, wife of the mayor, requested that her name be withdrawn from the committee's list of patronesses and intimated that Lawrence had no right to use it in the first place.

Half a dozen other society patronesses whose names appeared on the letterheads of the committee have denied they gave permission, and Lawrence now says he has to bar pretty girls from the house.

But as for Lawrence here's his view of the subject:

At the modest brownstone house on West Fifty-First street a young girl may secure food and lodging if she is in need without subjecting herself to an examination. She doesn't even have to give her name unless she so desires. When she finds employment she leaves the house to make room for the next unfortunate. The place is particularly for young and preferably beautiful girls. It is designed especially to save girls from the streets and brothels.

To be beautiful and young in New York is to be in danger—to a certain degree. Age is its own best protector. And elderly woman is comparatively safe; a young one isn't. This is the theory upon which the house is founded. Nightly it is caring for girls out of work, well dressed they are, and for the most part good to look upon.

They are factory workers and mill toilers. They are professional people, actresses perchance, maybe stenographers or clerks, who in any but periods of economic disease would go down Broad with their heads in the air—good example of the independent American working girl.

OHIO WOMAN'S DROPSY CURED!

Tells Everybody How This Happy
Result as Produced.

Dear Editor:—For a long time I had been suffering from dropsy. I had puffy pouches under my eyes. My feet, ankles and abdomen were swelled to twice their natural size and a finger pressure on the swelling left a white dent which remained for some time. This water often pressed against my heart and caused a smothering sensation. I had severe headaches, continuous backache, dizzy sensations and rheumatic pains throughout my entire body. The kidneys were off in their action and this poison backed up in my system. In spite of my doctoring and the taking of many remedies I obtained no relief.

Finally I was given a few Lloyd's kidney and rheumatism tablets, the new scientific prescription. These did me such good that I at once got a larger size and in a week's time all the swelling, backache, and other symptoms left me like magic. I now feel like a new woman. Lloyd's Tablets deserve all the credit for curing me of the trouble and ridding me of the terrible agony. I advise all to be sure and get from their druggists today, Lloyd's, the kind that cured me and cleanse their kidneys before too late.

CANADIANS ARE NOW IN FRANCE

Find Weather There to Their Liking
and Seem Better Able to Stand
it Than English

WILL SOON BE IN TRENCHES

Play American Football to Kill Time
and When in London Hunted
Chop Suey Dives

BY WILLIAM G. SHEPHERD
(U. P. Staff Correspondent.)

Calias, Feb. 1.—(By Mail to New York)—The Canadians are ready for the trenches.

They are camped, in part, near a little lake in France and they are finding that the weather of that country is far more comfortable than the rains and mud of England. Salisburg was as wet as the trenches. The passenger who tries to alight from a train at the little railroad station of the town near which the Canadians are tenting will be put back on the same train by a Canadian Tommy and sent on his way. The Tommy's explanation will be, "You've got to beat it, because it's orders."

The English officers and soldiers never cease in their wonderment over the Canadian brothers. In London it was the Canadian chop suey craze that puzzled the English. There's only one chop suey restaurant in London and it eaters almost entirely to Chinese students; the English have never discovered the beauties of chop suey. But there is scarcely a town in Canada that does not boast of its chop suey restaurants and it was only natural for the Canadians to seek out a chop suey place in London. They found it at Picadilly Circus and thereafter the Chinese students were crowded out by Canadian soldiers and officers. English officers who were inveigled into trying chop suey dinners with their Canadian brothers only said: "Most extraordinary" and declined to eat it. Soon the fame of the Canadians as chop suey eaters spread throughout the British army and the general military comment was, "Most remarkable fellows!"

But, if the English were surprised at the chop suey hunger in London, they are now even more surprised at the football game which the Canadians play on the banks of their little lake in France. It's the American game of push and gouge and the English officers look in bewilderment as two Canadian elevens struggled through the mud toward the goals. The English game of "soccer," which is only a kicking game and of Rugby, which is made up entirely of open play, are so entirely different from the American form of the game, as played by Canadians, that the English soldiers declare that the Canadians have no right to call their game "football." Which doesn't seem to bother the Canadians in the least for two or three games of "football" are going on almost every afternoon in the camp.

Though the lake near the camp is small, the members of various rowing clubs in Canada have found old row boats in which they keep up their daily practice.

"Great stuff," said a member of the Winnipeg eight. "If I were back in Winnipeg, where the earth is frozen four feet down, I'd be practicing with a rowing machine, but here I can row every day. I'll have it on 'em all when I get back home." The races in rowboats are another source of astonishment to the English. "One rows only in skulls," explained an English officer to a Canadian.

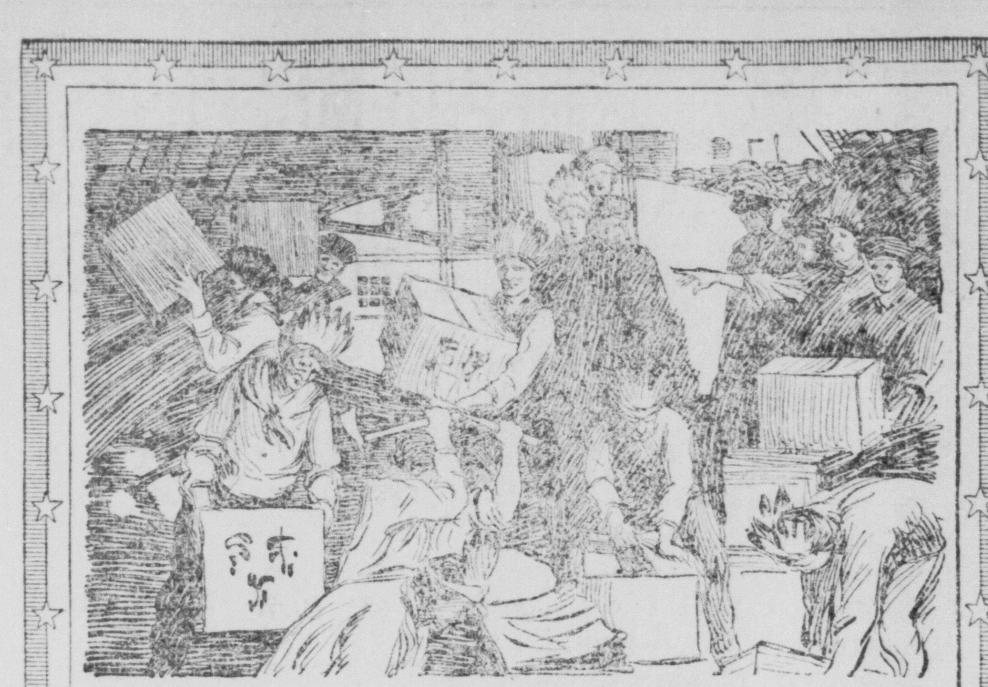

"So do we in Canada," replied the Canadian. "But in our country we learn to make the best of circumstances."

There is little doubt that the Canadians, especially from the Canadian northwest, are better able to endure the cold than the average English troops. Medicine Hat, Winnipeg, Calgary, with their forty below zero temperature, produce a man who'll laugh at thirty above bleakness of France. Hundreds of the

Canadians duck out of their tents in the morning and jump into the lake with shouts of joy while Britishers bath-lovers as they are, crawl into their warm clothes, saying meanwhile, "Most extraordinary chaps, those Canadians!"

It is another observation among British officers that the "Canadians are more like Americans than like Englishmen." An American will find this observation quite true.

Among the nineteen American marines killed at Vera Cruz last April five nationalities were represented, of course, the majority of the Canadians over here in France are of English extraction, but the death lists that will be printed in Canada, as soon as these men get to the front, will contain the names of men of almost every occidental nationality, with the exception of Germany, Austria and Hungary.

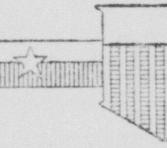

Samuel Adams a Boston Brewer

Samuel Adams, known in his day as the "father of the revolution" and one of the signers of the Declaration of Independence, operated a brewery and malt house in Boston during the stirring Revolutionary times.

That Adams believed in the fullest measure of liberty to the individual is evidenced by his leadership of the famous "tea party" which boarded a British ship at night and emptied its cargo of tea into the bay as a protest against the King's infringement upon the personal rights of the Colonists.

Adams was also the spokesman of the little band of patriots who, after the Boston massacre, demanded and obtained the removal of the English troops from the city.

Public ..Sale..

To be a success must be well advertised. The more people who know of a sale the larger the crowd, resulting in more competitive bidding, higher prices for the stuff and more dollars in the holder's pocket. The Daily Republican goes into every town, community and neighborhood in Rush County, and has more paid subscribers than all the rest of the Rushville papers combined. Right now everybody is looking for and reading sale notices. They want to buy. The Republican's "Public Sales" advertisements tell them who is having a sale, when and where. Sale bills will always be used but their number is decreasing. Newspaper advertising is found to reach more people and when they are in a mood to read, and is getting more popular all the time. When a man holds a sale he expects to spend a few dollars in advertising it, but he wants results. Come in; we can "deliver the goods." EPIDEMIC COST
TWO MILLIONS

Foot and Mouth Disease Resulted in
Expenditure of \$1,840,000 by
Federal Government

MONEY IS NOW AVAILABLE

Six Thousand Animals Killed in
Indiana, According to Depart-
ment of Agriculture

(By United Press.)

Washington, Feb. 18.—Two and a half million dollars is now available for fighting the foot and mouth disease under the recent urgent deficiency bill signed by President Wilson on January 25.

Up to the first of the year, the epidemic had cost the Federal government \$2,129,000. Of this sum, \$1,840,000 represents the Federal government's share of the cost of slaughtering affected herds and reimbursing the owners for their loss, of which the government pays half and the individual state the remainder. Figures of the Agricultural department show that exclusive of the work in January, 101,175 animals have been slaughtered. Of these, 46,268 were cattle, 47,735 swine, and the remainder sheep and goats.

Senator McCormick who introduced the bill and who acted as chairman of the committee considering it said today he would not press the bill, unless he was convinced that a majority of the people in the Kankakee watershed wanted it. He was not yet convinced, he said. McCormick said he introduced the bill at the request of Emery Andrews, a lawyer of Mattoon, Ill., who owns land in Starke county. McCormick represents Starke.

Senator Faulkner who spoke against the bill paid tribute to McCormick's fairness.

Andrews defended the bill, stating that the establishment of a perpetual commission from two states would give the drainage work permanence. He said several thousand acres of land were represented at a recent meeting held in Chicago to urge passage of the bill.

Representatives Southard, Overmyer, Van Horne, Wood and Hepler, spoke against the bill. Senator Kinder opposed it. These men said that if the commission was given such powers it could spend unlimited amounts of money to build roads, bridges, telegraph and telephone lines and could tax the affected counties far into the millions for alleged improvements that would redeem swamp lands but would not help the majority part of the watershed. They said they thought it was too much power to place in the hands of five men, two of whom would live in another state.

Thomas M. Herrold of LaPorte presented a petition representing about 25,000 real estate owners affected by the project who were opposed to the bill. He said more signers were being obtained daily.

"In those states in which the local quarantines have been rigidly enforced," says the department of Agriculture, "and in which the farmers have aided the authorities to stamp out the disease, satisfactory progress has been made at a smaller expense than was at first feared.

Indiana and Michigan, where the disease originated, were, for example, at first hard hit. Much of that territory is, however, now entirely freed from quarantine, and in only a small area is the movement of live stock absolutely prohibited. In Indiana, 6,000 animals were slaughtered and in Michigan, 7,000.

While Illinois and Pennsylvania are probably, today, the most seriously affected of all the states, there is every reason to believe that energetic measures will stamp out the pestilence there as well as elsewhere. Although large quantities of stock have been affected already, the number up to the present is small in comparison with the total quantity in these states. In Illinois there were approximately two and half million of cattle at the beginning of the outbreak. Of these 14,000 have been slaughtered. Out of approximately four and half million of hogs, only about 21,000 have been killed."

The results of a government investigation into the measures required to prevent the introduction of the pink boll worm into the cotton states indicate it will be necessary to adopt the restrictions proposed and discussed at a public hearing held last May at the Agricultural department.

In brief, the measures then proposed were: 1. An order placing similar restrictions on the importation of lint cotton to those which now apply to nursery stock, so that the entry of such cotton may be confined to the northern states. 2. A quarantine order regulating the movement of imported lint cotton from the northern to the southern states. 3. A quarantine order restricting the movement of Hawaiian cotton to certain northern states.

BILL'S CHANCES

Public Hearing on Kankakee Drainage Swamp Measure Last Night
Did Not do it Any Good.

McCORMICK FRANK ABOUT IT

Argument Against it Was That Commission With Unlimited Powers Could Spend Much Money.

(By United Press.)

Washington, Feb. 18.—Senators and others who attended the hearing last night on the bill providing for an Indiana-Illinois commission to take charge of the drainage situation in the Kankakee swamp district said today they thought the hearing lessened rather than enhanced the chances of the bill. Over sixty men, land owners from the district affected spoke pro and con on the bill.

Senator McCormick who introduced the bill and who acted as chairman of the committee considering it said today he would not press the bill, unless he was convinced that a majority of the people in the Kankakee watershed wanted it. He was not yet convinced, he said. McCormick said he introduced the bill at the request of Emery Andrews, a lawyer of Mattoon, Ill., who owns land in Starke county. McCormick represents Starke.

Morals Displayed Discriminatory in Its Action.

DECLARE DELAY HURT BILL

(By United Press.)

Indianapolis, Ind., Feb. 18.—Prohibition forces backing the statewide prohibition in the house were up in arms today over what they termed discrimination against them by the public morals committee of which Representative Myers of Kosciusko is chairman. The committee announced today a public hearing on the bill next Tuesday night. The "dry" forces asserted they had asked for this hearing over a week ago; that every minute of delay hurt the bill and that the delay was intentional. They would rather have had the bill reported out immediately.

JONES OPPOSED
TO LARGE NAVY

Senator From Washington Says
Government Should Not Build
Single Ship This Year

LESSON FROM PRESENT WAR

Demonstrates That Little Submarine
Is Very Effective—U. S. Weak
in This Line

(By United Press.)

Washington, Feb. 18.—"Not a single battleship should be built by this country this year," declared Senator Jones, of Washington, in discussing the naval appropriation bill. "I will not make any fight to prevent one or two battleships being built for several reasons. The most important is that the Naval Board seems to wish to keep up a certain program and I have no wish to interfere with that. But, as to the actual value of battleships, I do not believe that the construction of one, two, three, or four battleships this year would add materially to the strength of the power of resistance of the United States.

"This great war now raging in Europe, and for that matter all over the world, has demonstrated one thing very clearly, and that is that a little submarine, costing perhaps two or three hundred thousand dollars and carrying less than one hundred men, can with comparative immunity sink a big dreadnaught of the enemy that cost \$15,000,000 and carries a crew of about 1,000 men.

When struck by the torpedo from the submarine, incidentally, the big boat becomes a mere deathtrap for her large crew, including the scores of officers which the government owning the dreadnaught had spent so much money to educate and train.

"The greatest lesson which we have learned in naval warfare so far in this conflict, therefore, is the power and effectiveness of the submarine. Yet that is where the United States is weaker than in almost any other branch, always excepting aeroplanes, where it is weaker than anywhere else. This country should profit by the lesson which the countries of Europe have spent so much money to demonstrate—the enormous value of the submarine to harass and pick off the big fighting ships of the enemy. We should proceed to equip our navy with a large fleet of submarines and train a large number of men in the handling of these boats, the accurate shooting of torpedoes from them.

"There is another item which should be included in the naval appropriation bill. That is a liberal allowance for the building of more colliers and supply ships for the navy. I regarded it as a disgrace that this country had to charter ships flying a foreign flag to accompany our fleet on its trip round the world because we did not have enough supply ships and colliers in the navy, or for that matter in the American registry."

Don't Pass Up the Comforts and Pleasures of Life

You have seen the museum mummy—take a bunch from him. He hasn't had any pleasure for over 5,000 years. He had his opportunity—did he get his share? Do you? Buy what you need and make life a pleasure to yourself and family. There will come a time when you can't. Ask the mummy, he knew once—did he enjoy life to the full extent as it was intended for him to do? He won't answer—it's up to you. For instance, if you need a New Storm Buggy or any other kind of a buggy, why don't you buy it and buy it now? We have plenty of them and we want to sell them. We have every style that was ever made, all colors of paint, all kinds of combinations. The man that deprives himself of all these comforts of life may leave a bigger tombstone to mark the hole he is finally forced to crawl into but he is a mummy all the years of his life. So get busy, buy yourself a buggy, buy the boy a buggy and get what pleasure you can out of life now. Next year may be too late. Don't forget our Opening on March 12-13. Come in and have a good time with us and don't forget to buy what you need to make life worth while. You will be a mummy soon enough.

EXPECT TO PUT IT UP TO THE VOTERS

Senate Democrats Plan to Conduct Referendum on State-Wide Primary at Next Election

EXPENSE PLEA FOR KILLING

(By United Press.)

Indianapolis, Feb. 18.—When the senate convened today it was expected to proceed quickly with the aftermath of yesterday's direct primary fight in which the advocates of the primary were defeated.

Senator Elsner of Seymour said the senate doubtless would soon pass a referendum measure similar to the Osborn bill in the house, putting up to the voters a question similar to the following:

"Shall the General Assembly of the State of Indiana enact a compulsory state-wide direct primary election law?"

Elsner said the main reason Democrats overrode the platform pledge yesterday in killing the Rinear bill was that the primary would be an extravagance for the state. He estimated it would cost the state approximately \$240,000 for each statewide primary election.

"Why, it would cost my home county, \$2,000," he said. Elsner is a member of the elections committee.

The VanAuken primary referendum bill was favorably reported to the senate today.

NO EXTRA SESSION IS THE WORD TODAY

Wilson Said to Desire Blame For Failure of Ship Purchase Bill to Rest With Republicans.

THOUGHT MORE EXPEDIENT

(By United Press.)

Washington, Feb. 18.—There will be no extra session of congress. This was the word passed out today through the highest authorities.

The white house is favorable, it was indicated by the statements, to allow the shipping bill to go to conference for about ten days to permit passage of appropriation bills.

Afterward another attempt probably will be made to force the former through but if the filibuster continues it will be the end of the bill. The president is said to be under the impression that it would have been more experienced to place the blame for the failure of the measure on the Republicans rather than to risk the uncertainty of a special session.

DAVID BIRCH TAKES HIS LIFE

SIGNATURE NOT THAT OF FRAME'S

Furniture Worker Goes to Home of His Father, I. N. Birch, in Jersey City and Drinks Poison.

REFUSES TO GIVE REASON

BUYS THREE-OUNCE BOTTLE OF CARBOLIC ACID WHILE ON WAY TO PARENT'S HOME THIS MORNING.

David Birch, living at 608 West Ninth street, committed suicide this morning about ten o'clock at the home of his father, I. N. Birch, in Jersey City, by drinking the contents of a three-ounce bottle of carbolic acid. The reason for his act is not known but is believed by his family to have been caused by despondency.

He went to the home of his father, who lives in the house adjoining East Hill cemetery on the road leading by the John Boyd place, this morning about nine-thirty o'clock and in a very short time became violently ill, suffering with convulsions. He refused to make a statement before he lapsed unconscious but the family suspected he had taken something with a view of ending his life, and when urged to tell what he had taken, stated that they would find out in time.

The attending physician was unable to do anything for him and he died about ten o'clock. The physician stated that death was very quick considering that the poison was carbolic acid. Mr. Birch left home early this morning, and that he had planned to end his life is shown by the fact that he purchased the carbolic acid at a local drug store while on his way to his father's home and took the poison shortly after he arrived there.

It was intimated that Birch had trouble with his wife before leaving home but this is denied by her and she stated that he apparently was in good humor when he left this morning. Mrs. Birch was his second wife and one of his brothers stated that he had grieved for many years over the death of his first wife several years ago. Besides his widow, he is survived by five little children.

Mr. Birch had been employed at the Park factory off and on for the past four years and yesterday went home, stating that he did not feel well. It will be recalled that a little son of Mr. Birch lost his foot when run down by a mower last summer at the Bruce Graham farm northwest of the city. Mr. Birch is also survived by several brothers and sisters.

DEATH WAS ACCIDENTAL

Coroner Makes Finding in the Greely Ferguson Case.

Coroner Barnett, this afternoon, returned his verdict on the death of Greely Ferguson, which occurred on the morning of Feb. 8, when the small house in which he was sleeping in at the county poor farm burned. The coroner in his verdict states that in his opinion the fire which resulted in the death of Ferguson was accidental. The coroner states that it was necessary to keep him in the house for the protection of himself and others and that when the fire started Ferguson was unable to get out and perished in the flames.

Special Judge Wilson in Circuit Court Makes Ruling in Suit to Collect Note For \$385.

HELD BY LATE GATES SEXTON

Administrator Files Action But Defendant Proves, According to Court, he Never Signed Paper.

David L. Wilson of Shelbyville acting as special judge in the circuit court today, decided for the defendant William Frame in the suit brought against Mr. Frame by Claude Cambren, administrator of the estate of Gates Sexton, deceased, in an effort to collect a note, demand \$750.

In deciding for the defendant Judge Wilson virtually decided that the signature to the paper held by the late Mr. Sexton was not that of Mr. Frame. The supposed note was found in the effects of Mr. Sexton after his death had been made in 1907. The amount was for \$385 and with interest from this date, the demand in the suit was \$750.

Mr. Frame denied ever giving Mr. Sexton a note and maintained that the signature was not his. Several persons in positions to know the signature of William Frame testified that the signature to the note was not that of Mr. Frame. Among those who testified that the signature was not that of Mr. Frame were Joseph L. Cowing, Miss Anna Bohannon, Earl H. Payne and Norma Norris. Mr. Norris exhibited about forty receipts from Mr. Frame signed by him and the signature on the note did not resemble those on the receipts. Mr. Norris is a renter of Mr. Frame and the receipts were for rent money.

The case was very interesting and the note will perhaps remain a mystery. The note was on the Rushville National bank and was due in one year after the date it was executed. According to the testimony, no ef-

THREE MORE TRUE BILLS RETURNED

Grand Jury Brought Additional Indictments This Afternoon Making Total of Six.

JUROR ASKS TO BE EXCUSED

The grand jury returned three more indictments this afternoon and adjourned to meet again Friday. The grand jury has been in session six days and has averaged one indictment a day. The first indictments were returned last week and two arrests have resulted.

It was impossible to learn the nature of the offenses charged in the indictments returned this afternoon. The indictments were turned over to Clerk Taylor and the bench warrants will be issued from them. I. N. Dearinger, a member of the grand jury, desired to be excused from further service, but his request was refused by Judge Sparks, who explained the law on the question. Judge Sparks stated that if he discharged one member he might have to order a new grand jury and asked the men to try and serve out the term. Mr. Dearinger gave as his reason that he had work to do on the farm.

"DRYS" PLAN A BIG RALLY DAY

Sunday, February 28, Will be Replete With Meetings, and Ministers Will Exchange Pulpits

MEN TEACHERS TO EXCHANGE

Special Speakers Coming to Address Men's Big Meeting and Women's Big Meeting—Mass Meeting

Sunday, February 28, a week from next Sunday, will be local option rally day in Rushville, it was announced today by the chairman of the publicity committee of the "dry" organization which has been formed to wage a fight against the "wets" who, it is believed, will file a petition for a local option election before the commissioners hold their regular March meeting the first Monday in March.

The ministers will exchange pulpits that day; teachers of the Men's Bible classes of the Sunday schools will exchange classes, a men's big meeting and a woman's big meeting will be held in the afternoon and at night a mass meeting will be held.

Judge Charles F. Malsberry of Cincinnati, O., will be the speaker at the men's big meeting. He is a gifted speaker and is acquainted with the subject which he will discuss. The meeting will be held at St. Paul's M. E. church at two o'clock and Wagoner's orchestra will play.

The women's big meeting will be held at the United Presbyterian church at two o'clock in the afternoon and the address will be made by Mrs. Elizabeth Stanley. She is a woman of exceptional ability and one whom every woman in Rushville will profit by hearing it is announced. She has been giving all of her time to Purdue university lecture work this winter at institutes in her endeavor to better rural living conditions.

In the evening the mass meeting will take place at seven o'clock at the Main Street Christian church. The ministers of the city will all speak at that time and special music will be provided.

The ministers will exchange pulpits in the morning in the following manner: the Rev. A. D. Batchelor of St. Paul's M. E. at the First Presbyterian; the Rev. C. M. Yocom of the Main Street Christian at the St. Paul's M. E.; the Rev. D. Ira Lambert of the First Presbyterian at the Main Street Christian; the Rev. S. G. Huntington of the First Baptist at the United Presbyterian and the Rev. A. W. Jamieson of the United Presbyterian at the First Baptist.

The teachers of the men's class, in addition to teaching the classes where they are assigned for this special Sunday, will make ten-minute talks before the Sunday schools concerning the topic that is to interest the churches. The assignments for the men's teachers are as follows: Douglas Morris of the First Presbyterian at the First Baptist; Judge Will M. Sparks of St. Paul's M. E. at the Main Street Christian Century class; B. F. Miller of the Main Street Christian at St. Paul's M. E.; J. H. Scholl of St. Paul's M. E. at the First Presbyterian and E. B. Thomas of the same place at the United Presbyterian.

U. R. K. OF P. DRILL. The members of U. R. K. of P. No. 35 are requested to meet at Castle Hall tonight at eight o'clock for drill practice. A "pitch-in" lunch will be served after drill.

There will be a box social at the Red Men Hall next Monday evening. Come and have a good time.

WOULD CHANGE LOCAL DISTRICT

New State Reapportionment Bill Places Rush County With Franklin and Fayette County.

TO ELECT STATE SENATOR

Rush County is Still Entitled to One Representative, Under Terms of New Measure.

Under the terms of a reapportionment bill introduced in the lower branch of the state legislature in Indianapolis late yesterday afternoon, the state senatorial district would be changed, if the bill becomes a law.

Rush, Hancock and Fayette counties now form a district which elects one state senator every four years. The reapportionment bill takes Hancock county from this district and places it with Hamilton and Madison counties, thus forming a new senatorial district, and supplants Hancock county in the district in which the United States consumers have had to pay much more to get flour. Some high prices of the past will be very enlightening to the present generation.

In the early part of May, 1867 spring wheat flour sold at wholesale prices on the Chicago market at \$12.50 or \$15.00 per barrel and white winter wheat flour at \$16 or \$18.50. Retail prices were about \$1.50 to \$2.00 per barrel higher.

Winter wheat flour from Nashville, Tenn., sold for \$18.50 and flour from St. Louis at \$18. per barrel wholesale and \$20 retail. During the first ten days of May, 1867 spring wheat sold in round lots at Chicago at \$2.70 or \$3.00. One ear on the track sold at \$3.05 and one ear at \$3.10 in bags delivered. One lot of 5,000 bushels sold at \$2.80 the last half of May.

A Chicago miller sold 20,000 bushels of choice milling wheat to an interior Illinois farmer for \$80,000. Gold at that time was about 135 or 136, which would make the relative price on a gold basis at about \$2.20.

Bran sold at that time at \$35.00 or \$37.00 per ton and corn meal, according to quality at \$44.00 or \$57.50 per ton. In November, 1863 meat pork sold at \$44.00 a barrel for cash and government certificates and in September 1865, lard sold at \$30.00 per hundred pounds. Hams were salable at 20¢ or 25 cents per

Other Grain and Live Stock as Well Soared in 1867 and 1868, Records Indicate.

Comparative high and low prices for wheat during the last fifty years reveal that there have been many occasions when grain, especially wheat, was much higher than it is now. At other times in the history of the United States consumers have had to pay much more to get flour. Some high prices of the past will be very enlightening to the present generation.

In the early part of May, 1867 spring wheat flour sold at wholesale prices on the Chicago market at \$12.50 or \$15.00 per barrel and white winter wheat flour at \$16 or \$18.50. Retail prices were about \$1.50 to \$2.00 per barrel higher.

IS FRIENDLY TO UNITED STATES

German Reply to American Protest Against Submarine Blockade is Made Public Today.

IT IS FIRM REITERATION

Action in No Way Directed Against Commerce of Neutrals, The Note Explains.

(By United Press.)

Berlin, (Via Amsterdam), Feb. 18. The text of the German reply to the United States protest against the submarine blockade was made public today and it is, as expected, a firm reiteration of its protest against English methods. In tone, the answer is especially friendly to the United States, but it is carefully set forth that Germany took the steps she did only after mature deliberation and because the English measures "are in violation of the accepted principles of international law."

The German government is declared to be "in accord with the United States; that it is in a high degree desirable to avoid misunderstanding which might arise from the measures announced by the German admiralty." "This action is in no way directed against the commerce of neutrals," the note says, "but represents solely a measure of self defense imposed on Germany by her vital interests against England's methods of warfare."

"The German government," explains the note, "feels itself obliged to point out with the greatest emphasis that a traffic in arms estimated at many hundreds of millions between American firms and Germany's enemies is going on. Germany fully comprehends that the practice of right and the toleration of wrong on the part of neutrals are matters absolutely at the discretion of neutrals and involve no formal violations of neutrality."

WOULD BE UNNEUTRAL ACT.

(By United Press.)

Washington, Feb. 18.—An embargo by the United States on the exportation of arms to belligerent nations would be a completely unneutral act, President Wilson today told a committee of women who presented a petition with 28,000 signatures.

NOT TO USE WARSHIPS.

(By United Press.)

Washington, Feb. 18.—No United States warship will be sent at present to Germany's "death zone" around the British Isles. Secretary Daniels made it clear today that he was not considering using them either to convoy American merchantmen or for general protection outside the zone.

The New, New Year

In a merchandising way February is New Years throughout the land.

Many retail businesses begin their fiscal year on that date—and in a general way all are "in the market."

That means that new goods begin to flow into the stores and producers are forced to greater headway.

All signs point to a better year next year than last year.

Business is optimistic. The clouds are lifting.

It will be a good year for those who advertise.

The time to begin is now.

ARRESTED ON GRAND JURY INDICTMENT

Hubert Bradley is Brought Here Today From Madison County For Selling Mortgaged Property.

MORTGAGED \$400, SOLD \$30

Hubert Bradley, of near Madison, was arrested yesterday by the sheriff of Jefferson county and brought here this morning to answer to the charge of selling mortgage property returned against him in a grand jury indictment. This is the second of the three previous indictments returned by the present grand jury.

Bradley formerly lived in Anderson township and it is alleged in the grand jury indictment that he sold a corn shredder to Dora Jackman for \$30, which was mortgaged to Hallmuth and Neinaber. It is stated in the indictment that the mortgage was for \$400 and that he sold the outfit to Jackman for \$30 contrary to the law governing mortgage property. Sheriff McKay of Jefferson county brought Bradley to this city.

VOLLMER THE CHOICE.

\$3000.00 FIRE PREVENTED

Read This Letter:

"Several years ago I called on Lane & Evans to buy a pump and they almost forced me to buy one of your Fig. 28 Red Jacket Double-Acting Force Pump and fifty feet of hose when I only intended to buy a cheap set length pump. Mr. Lane put up such strong argument on fire protection" that I followed his advice and bought the Fig. 28, little thinking that it would be of any service to me in that respect.

Shortly after the pump was installed, my barn caught fire and had it not been for this pump and hose and the thoughtfulness of Mrs. Barnett, my barn, house and all buildings on the place would have been destroyed."

AN OLD RECIPE
TO DARKEN HAIR

Common garden Sage and Sulphur makes streaked, faded or gray hair dark and glossy at once.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for Wyeth's Sage and Sulphur Compound. You will get a large bottle for about 50 cents. Everybody uses this old, famous recipe, because no one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger.

Miss Blanche King went to Marion Saturday for a three weeks' visit with relatives and friends.

Keeping Colds Away

People who have colds, according to the U.S. Public Health Service are suffering from an attack of germs which they carry in their own mouths and throats. These have been permitted to reside there in a state of armed neutrality between the germs and the body defenses, until fatigue, emotion, intemperance over-exertion, or sudden chill, temporarily reduces the integrity of the body's defensive agents. This produces the aggregation of symptoms known as a cold. Colds are really very serious matters, and should never be treated lightly. If

the body's resistance to one kind of disease germ is lowered, it is quite easy for other germs to gain a foothold and spring into activity at such a time. The infection which has produced a cold may extend to other parts of the body, and middle-ear disease and deafness may ensue, or a remote joint may be infected, thus causing a lowered efficiency throughout life. Many of the cases which are diagnosed as rheumatism are merely the chronic poisoning which results from the continued growth of the same germs which produce colds. Since colds are induced by a lowering of the bodily efficiency, it is seen that they may be avoided by the maintenance of the bodily processes in a good condition. This means the observance of the rules of hygiene, adequate food, avoidance of excesses, the securing of sufficient sleep and the like. Above all, the teeth should be kept in good condition and the mouth kept clean.

It is the duty of persons who have colds to take every precaution against transmitting them to others. The agency in the transmission of colds from one person to another is the sputum and this transference may occur directly by sneezing, coughing, or expectorating. Someone has called the cold the strap-hangers disease because of the frequency with which it is contracted in overcrowded street cars. The common handkerchief is a great transmitter of disease. Persons with colds should either destroy the handkerchiefs which they use or sterilize them by boiling them. If you do not want to give your cold to somebody else, hold your handkerchief or your hand over your face when you cough or sneeze, and do not indulge in promiscuous spitting. If you do not wish to contract a cold from a person who has one, avoid intimate personal contact with him. In the old days they used to hang asafetida around the schoolboy's neck in order to protect him against colds and this did to a certain extent perform the function for which it was designed, because the odor of asafetida is such as to discourage close personal contact. A little cold is a dangerous thing. Many a case of tuberculosis is dated from a neglected cold. Keep up your bodily defenses and avoid the careless person who is acting as a chronic distributor of colds.

Connecting up With Job.

Says W. H. Blodgett in the Indianapolis News:

For years and years and years, also a few nights, Fon Riggs, of Rushville, has thumped the bass-drum and carried the torch in political processions. He has spoiled numerous suits of clothes with coal oil and his hats have become offensive from refined petroleum. And he never had an office until now. Being a Republican he would not accept office but he thought he would like to find out how it feels to have a job under a Democratic administration. So he accepted the position of inheritance tax collector. He worked at it with his well known skill and ability and was getting along the finest in the world until in a fit of frenzied jealousy Senator Yarling introduced a bill to abolish that office. Mr. Riggs arrived in town last night to see about it.

"It is the only office I ever held," said Mr. Riggs sadly, "and just about the time I am getting used to official life Bill Yarling gets mad and wants to abolish the office."

"Well, don't you care," soothed a friend, "it is not much of an office, anyhow."

"What's the reason it isn't?" exclaimed Mr. Riggs. "It pays \$175 a year. I guess that is something."

And besides it's a danged outrage on Bill Havens, too."

"What has Bill Havens got to do with it?" inquired the astonished friend.

"Bill is my deputy and gets half the salary."

"Why should Bill be in on it?" again asked the friend.

"Why, you see, Bill helps me think and I have to reimburse him for his work, don't I?"

WILL NOT OPPOSE WOMEN'S MEASURE

THOS. TAGGART, Decided he Will do Nothing to Prevent Suffrage Bill.

HIS ATTITUDE MUCH SOUGHT

(By United Press) Indianapolis, Feb. 18.—National Committeeman Thomas Taggart, leader of the party that has the majority in the Indiana legislature, will not oppose the Maston-Rue bill to give partial suffrage to women, which is pending in both houses.

"Do you favor the passage of the bill?" he was asked today by the United Press.

Taggart pondered a moment and said:

"I shall do nothing to oppose or prevent it."

The attitude of Mr. Taggart to the bill has been a matter of some concern to women suffragists. They have called on him in an attempt to interest in their measure.

AMENDMENTS WERE ON SPECIAL ORDER

Proposed Change in Basic Law of State Was Set For Consideration in Senate Today.

FIGHT ON ONE ESPECIALLY

(By United Press) Indianapolis, Feb. 18.—The senate was prepared today to consider one by one the twenty-two proposed Stotsenberg amendments to the constitution, when they came up as a special order of business.

Democratic Floor Leader VanNuys said he believed the sentiment of the majority was that most of these amendments should be adopted. If they are adopted by this legislature, they will then go to the people at the next general election for final adoption.

"The biggest fight will be made against the one providing new restrictions for voting," said Van Nuyes. "It provides that males only shall vote and is considered unfriendly to the suffragists. There will be a fight against the tax amendment, giving the legislature power to classify different kinds of property for taxation."

Van Nuyes said he believed the other amendments would pass, especially the one providing for compulsory compensation.

LONG DEBATE EXPECTED

Appropriation Bill is Submitted to the House Today.

(By United Press) Indianapolis, Ind., Feb. 18.—Representative McFetridge of the legislative visiting committee, which today submitted its appropriation bill to the house committee of the whole, said he expected long debate but hoped the bill would go through as drafted.

"The girls industrial school at Clermont, the Jelersonville reformatory and the Knightstown Sailors' and Soldiers' Orphans' Home will appeal for larger appropriations," he said.

ITS REPORT WAS DUE LATE TODAY

Committee on Workman's Compensation Bill Will Favor Amendment Outlined Earlier.

JUST WHAT IT WILL PROVIDE

Would Allow Children to Receive Benefit in Case Widow of Dead Workman Marries.

(By United Press)

Indianapolis, Feb. 18.—Representative Sare chairman of the Judiciary A committee, said today that the administration measure for workman's compensation would be reported to the house late today with the amendment outlined earlier by him. The same bill as amended will be reported to the senate and the plan is to have both houses pass them soon.

The proposed amendment most pleasing to labor would raise the rate of compensation from 50 per cent. to 55 per cent. of the daily wage. Labor has asked 66 2/3 per cent.

Sare proposed to amend the bill so that the children of a killed workman shall receive the share having been received by the widow in case the widow marries. If the mother is divorced from fault of her second husband, then she would again receive the compensation, according to Sare's suggestion.

The bill provides that if the injured workman does not report his injury properly before the expiration of six months he is not to receive compensation. Sare would amend it to include the words, "for good cause," thus allowing the workmen some lee way.

Labor's main demand—that state insurance be provided—is not complied with in the bill. Employers may insure with whomsoever they please. The bill provides a state board of rewards of three persons. Every employer and employee would be presumed under the law unless they had filed previous to the accident a statement to the contrary. The defenses of the employer under the liability act are removed making it likely that employers would come under this law.

Sare and others expect this bill to become the state compensation law.

Real Harbinger of Spring Seen in Chicago When Comiskey's Crew Leaves for Training Camp

OVER ONE HUNDRED IN PARTY

Great Things Expected of Rowland, Bush League Pitcher—Collins Expects Good Year

BY JAMES O'DEA
(Written for United Press.)

Chicago, Feb. 18.—Chicago caught a real harbinger of spring in the act today when Charley Comiskey's personally conducted crew steamed out on a special train for the Pasco Robles, California, training camp. There were 100 or more in the party. They included ball players, some who merely are classified under that name, personal friends of the Old Tomah, to the number of sixty or seventy, and several Pacific Coast League players enroute to join their respective clubs.

Very much among those present was a young man named Clarence Rowland, the erstwhile bush leaguer, who is to lead a big league crowd this summer. Rowland got almost as much of a send-off from fans who went to the depot to see the bunch off, as did the beloved Comiskey himself. If he makes use of 87½ percent of the good wishes and hopes for success that he carried away with him, he'll make any of the White Hopes in the A. L. break a record to snap the tape ahead of the White Sox.

Great things were promised for Rowland today. The stay-at-homes predicted exactly what the Chicago Americans need to put them out in front next spring. South-siders believe Rowland is going to develop into another Kid Gleason—incidentally, Kid Gleason was fired this winter.

Another one of prominence among those present today was One Hundred Dollar Eddie Collins, second sacker, of note and one of the City of Philadelphia. Collins declared he is in great shape and ready for the best game of his career, etc.

Natives Take to Sport and Wallop
May be Handed to New York
as Boxing Center

CHANCE FOR EASY MONEY

Welsh Announces That he Will Fight
All Comers Over Twenty Round
Bouts in Future

BY HAL SHERIDAN
(Written for United Press.)

New York, Feb. 18.—New York as a boxing center is going to be handed a K. O. wallop in the near future if the plans of Havana promoters do not fall through.

Returning impresarios bring stories of how the natives down there are simply crazy about the glove game and are willing, yet anxious to shove their shackles through the box office window with astonishing regularity to see the boys perform. Added to the patronage of the natives, they say, is that of a great many Americans sportsmen who spend their winters there.

Be that as it may, it's a cinch if the promoters there keep offering the kind of money they have started out to, these United States are going to be a barren of pugs as Cleveland is of ball-players.

In the Young Ahern-Willie Lewis battle a few days ago, the first fistie struggle staged in the new campaign, each received \$2,000. If the promoters can pay this class of boxers two thousand per each and get away, what, oh what would they pay a pair of champions or real contenders.

Eastern Fighters are already beginning to prick up their ears. That two thousand noise is awfully sweet to their battered ears and if the promoters keep it up Cuba is going to be as full of boxers and alleged boxers as Ben Johnson is of expletives against the Feds.

H. Connolly Pollack, whose chief aim in life seems to be keeping his champion, Freddie Welsh, from getting into a decision fight, is out with a new announcement. He says after Welsh and Willie Ritchie settled their little dispute at Madison Square Garden March 11, he is going to send Freddie Welsh against all comers in twenty-round decisions battles anywhere the promoters will offer enough. Promises and announcements to this effect have emanated from Welsh and his manager at regular intervals since the Welshman won his crown, but up to date they have managed to side step all encounters where there was a chance for the Britisher to drop his title.

**WILL END HOT FIGHT

Appointment of Postmaster There
Causes Some Battle Among
Various Elements of Party.

DELEGATIONS TO WASHINGTON

(By United Press.)

Huntington, Ind., Feb. 18.—When the postmaster for Huntington finally is appointed it will end a long battle. The candidate are L. G. Trixler who has held city and state offices; David Marx, a clothing merchant, long in the harness for the Democratic party; Harno Duncan, a young and active Democrat, and Daniel Awker, a railway mail superintendent.

The big fight has been made against Trixler, who has been named as a member of the Taggart organization. Marx has been an anti-organization man, and has seemed all along to have been giving Trixler the hottest race.

The appointment has been one of the most vexing problems Congressman George W. Rauch has had to settle. Since the election last fall the race has been hot every day, and many delegations have gone from Huntington to Washington to see Rauch and the two Indiana senators in regard to this question.

SIGNAL PREVENTS WRECK

Serious Mishap Believed to Have
Been Avoided on C. H. & D.

The automatic block signals on the C. H. & D. railroad are believed to have prevented a serious wreck Tuesday night. The signals were responsible for the flinging of east bound freight train No. 406 at Manzy. Conductor VanSeoye and Engineer Payne went ahead of the train and found a broken rail at the bottom of a steep grade near Glenwood. It was stated that the rail was so damaged that it would not have withstood the weight of the train.

The funeral services of Miss Lydia Sampson whose death occurred at Marion were conducted at the Arlington Christian church Wednesday afternoon by the pastor, Rev. D. L. Milligan. Burial in Arlington cemetery.

HOW DOES THE REAR AXLE OF YOUR CAR "SOUND" AND ACT?

Is it noisy, loose and does it
seem to "gather together" before the car moves, instead of
acting noiselessly and as a

ATTACKS NEW CHARITY PLAN

Organized Body Withdraws Support
Because No Attempt Was Made
to Find Work For Beneficiaries.

PLACE KEPT UP BY DONATIONS

Franklin Lawrence Allows Girls to
Keep Fine Clothes and Caters
to the Beauty Types.

BY CARLTON TEN EYCK.
(Written for United Press.)

New York, Feb. 18.—The Utopian dream of social workers sociological experts—an organization that really extends charity without investigating an inquisitorial subjection of its beneficiaries—is Franklin Lawrence's statement of the aims and purposes of the White Cross committee.

But Lawrence prefers to help pretty girls—the prettier the better—and his motives have been questioned, leaving him in hot water up to his neck. But Lawrence is confident of paddling out and convincing a somewhat incredulous public that the White Cross home—a brownstone structure in West Fifty-first street, is just what he terms it to be, a refuge for those who most need help.

The White Cross committee has been plastered all over the first pages of New York newspapers because Mrs. John Purroy Mitchell, wife of the mayor, requested that her name be withdrawn from the committee's list of patronesses and intimated that Lawrence had no right to use it in the first place.

Half a dozen other society patronesses whose names appeared on the letterheads of the committee have denied they gave permission, and Lawrence now says he has to bar pretty girls from the house.

But as for Lawrence here's his view of the subject:

At the modest brownstone house on West Fifty-First street a young girl may secure food and lodging if she is in need without subjecting herself to an examination. She doesn't even have to give her name unless she so desires. When she finds employment she leaves the house to make room for the next unfortunate. The place is particularly for young and preferably beautiful girls. It is designed especially to save girls from the streets and brothels.

To be beautiful and young in New York is to be in danger—to a certain degree. Age is its own best protector. And elderly woman is comparatively safer; a young one isn't. That is the theory upon which the house is founded. Nightly it is caring for girls out of work, well dressed they are, and for the most part good to look upon.

They are factory workers and mill tenders. They are professional people, actresses perchance, maybe stenographers or clerks, who in any but periods of economic disease would go down Broad with their heads in the air—good example of the independent American working girl.

OHIO WOMAN'S DROPSY CURED!

Tells Everybody How This Happy
Result as Produced.

Dear Editor:—For a long time I had been suffering from dropsy. I had puffy pouches under my eyes. My feet, ankles and abdomen were swelled to twice their natural size and a finger pressure on the swelling left a white dent which remained for some time. This water often pressed against my heart and caused a smothering sensation. I had severe headaches, continuous backache, dizzy sensations and rheumatic pains throughout my entire body. The kidneys were off in their action and this poison backed up in my system. In spite of the dieting and the taking of many remedies I obtained no relief.

Finally I was given a few Lloyd's kidney and rheumatism tablets, the new scientific preparation. These did me such good that I at once got a larger size and in a week's time all the swelling, backache, dizzy sensations and rheumatic pains left me like magic. I now feel like a new woman. Lloyd's Tablets deserve all the credit for curing me of the trouble and ridding me of the terrible agony. I advise all to be sure and get from their druggists today, Lloyd's, the kind that cured me and cleanse their kidneys before too late. Mrs. Emma Neel.

CANADIANS ARE NOW IN FRANCE

Find Weather There to Their Liking
and Seem Better Able to Stand
it Than English

WILL SOON BE IN TRENCHES

Play American Football to Kill Time
and When in London Hunted
Chop Suey Dives

BY WILLIAM G. SHEPHERD
(U. P. Staff Correspondent.)

Calais, Feb. 1.—(By Mail to New York)—The Canadians are ready for the trenches.

They are camped, in part, near a little lake in France and they are finding that the weather of that country is far more comfortable than the ruins and mud of England. Salisburg was as wet as the trenches.

The passenger who tries to alight from a train at the little railroad station of the town near which the Canadians are tenting will be put back on the same train by a Canadian Tommy and sent on his way. The Tommy's explanation will be, "You've got to beat it, because it's orders."

The English officers and soldiers never cease in their wonderment over the Canadian brothers. In London it was the Canadian chop suey craze that puzzled the English. There's only one chop suey restaurant in London and it caters almost entirely to Chinese students; the English have never discovered the beauties of chop suey. But there is scarcely a town in Canada that does not boast of its chop suey restaurants and it was only natural for the Canadians to seek out a chop suey place in London. They found it at Piccadilly Circus and thereafter the Chinese students were crowded out by Canadian soldiers and officers. English officers who were inveigled into trying chop suey dinners with their Canadian brothers only said: "Most extraordinary" and declined to eat it. Soon the fame of the Canadians as chop suey eaters spread throughout the British army and the general military comment was, "Most remarkable fellows!"

But, if the English were surprised at the chop suey hunger in London, they are now even more surprised at the football game which the Canadians play on the banks of their little lake in France. It's the American game of push and gouge and the English officers look in bewilderment as two Canadian elevens struggled through the mud toward the goals. The English game of "soccer," which is only a kicking game and, of Rugby, which is made up entirely of open play, are so entirely different from the American form of the game, as played by Canadians, that the English soldiers declare that the Canadians have no right to call their game "football." Which doesn't seem to bother the Canadians in the least for two or three games of "football" are going on almost every afternoon in the camp.

Though the lake near the camp is small, the members of various rowing clubs in Canada have found old row boats in which they keep up their daily practice.

"Great stuff," said a member of the Winnipeg eight. "If I were back in Winnipeg, where the earth is frozen four feet down, I'd be practicing with a rowing machine, but here I can row every day. I'll have it on 'em all when I get back home." The races in rowboats are another source of astonishment to the English. "One rows only in skulls," explained an English officer to a Canadian.

"So do we in Canada," replied the Canadian. "But in our country we learn to make the best of circumstances."

There is little doubt that the Canadians, especially from the Canadian northwest, are better able to endure the cold than the average English troops. Medicine Hat, Winnipeg, Calgary, with their forty below zero temperature, produce a man who'll laugh at thirty above bleakness of France. Hundreds of the

Canadians duck out of their tents in the morning and jump into the lake with shouts of joy while Britishers bath-lovers as they are, crawl into their warm clothes, saying meanwhile, "Most extraordinary chaps, those Canadians!"

It is another observation among British officers that the "Canadians are more like Americans than like Englishmen." An American will find this observation quite true.

Among the nineteen American marines killed at Vera Cruz last April five nationalities were represented, of course, the majority of the Canadians over here in France are of English extraction, but the death lists that will be printed in Canada, as soon as these men get to the front, will contain the names of men of almost every occidental nationality, with the exception of Germany, Austria and Hungary.

GOES BACK TO WORK MINUS HIS FROGS

Man Who Carried Fourteen on His
Stomach is Apparently None
Worse for Experience

DOCTOR VOUCHES FOR STORY

(By United Press.)

St. Paul, Minn., Feb. 18.—Albert Kreuger, the man who carried 14 frogs in his tummy for several weeks and found that ten of them were alive when ejected, resumed work today, after being off duty for over two weeks to think it over.

Kreuger is believed by Dr. C. F. Johnson of Winthrop, Minn., who vouches for the story, to have taken frog eggs into his stomach while drinking water. The eggs got into the intestines, where the digestive juice are less severe and there hatched. Then they made their way back into the man's stomach, where they created irritations that produced violent pain and nausea, which almost caused Kreuger to have an operation. It was during a fit of violent nausea that Kreuger ejected the frogs, and ten of them hopped about real lively like on the ground.

One-Spoonful Gives Astonishing Results

Rushville residents are astonished at the quick results from the simple mixture of buckwheat flour, gripes, is safe to use and the INTI. This remedy acts on BOTH upper and lower bowels and is SO THOROUGHLY a bowel cleanser that it is used successfully in appendicitis. ONE SPOONFUL of Adler-kiel relieves almost ANY CASE of constipation, sour or gassy stomach! ONE MINUTE after you take it, the gasses rumble and pass out. F. E. Wolcott, druggist.

Samuel Adams a Boston Brewer

Samuel Adams, known in his day as the "father of the revolution" and one of the signers of the Declaration of Independence, operated a brewery and malt house in Boston during the stirring Revolutionary times.

That Adams believed in the fullest measure of liberty to the individual is evidenced by his leadership of the famous "tea party" which boarded a British ship at night and emptied its cargo of tea into the bay as a protest against the King's infringement upon the personal rights of the Colonists.

Adams was also the spokesman of the little band of patriots who, after the Boston massacre, demanded and obtained the removal of the English troops from the city.

"The Store for Particular People."

To be a success must be well advertised. The more people who know of a sale the larger the crowd, resulting in more competitive bidding, higher prices for the stuff and more dollars in the holder's pocket. The Daily Republican goes into every town, community and neighborhood in Rush County, and has more paid subscribers than all the rest of the Rushville papers combined. Right now everybody is looking for and reading sale notices. They want to buy. The Republican's "Public Sales" advertisements tell them who is having a sale, when and where. Sale bills will always be used but their number is decreasing. Newspaper advertising is found to reach more people and when they are in a mood to read, and is getting more popular all the time. When a man holds a sale he expects to spend a few dollars in advertising it, but he wants results. Come in; we can "deliver the goods." EPIDEMIC COST TWO MILLIONS

Foot and Mouth Disease Resulted in Expenditure of \$1,840,000 by Federal Government

MONEY IS NOW AVAILABLE

Six Thousand Animals Killed in Indiana, According to Department of Agriculture

(By United Press.)

Washington, Feb. 18.—Two and a half million dollars is now available for fighting the foot and mouth disease under the recent urgent deficiency bill signed by President Wilson on January 25.

Up to the first of the year, the epidemic had cost the Federal government \$2,129,000. Of this sum, \$1,840,000 represents the Federal government's share of the cost of slaughtering affected herds and reimbursing the owners for their loss, of which the government pays half and the individual state the remainder. Figures of the Agricultural department show that exclusive of the work in January, 101,175 animals have been slaughtered. Of these, 46,268 were cattle, 47,735 swine, and the remainder sheep and goats.

The money now at the disposal of the Department of Agriculture will, it is believed, aid the campaign against the pestilence by enabling the government to make prompt payment to all owners of infected herds and thus minimize the reluctance of farmers to have their herds slaughtered. In Illinois, for example, approximately \$600,000 is now available for this purpose. The loss in that state has been larger than in any other, 36,000 animals having been slaughtered there. Pennsylvania comes next with 17,000 animals, and Ohio third with 10,000. None of the other sixteen affected states has lost as many as 8,000.

BILL'S CHANGES WERE DAMAGED

Public Hearing on Kankakee Drainage Swamp Measure Last Night Did Not do it Any Good.

McCORMICK FRANK ABOUT IT

Argument Against it Was That Commission With Unlimited Powers Could Spend Much Money.

(By United Press.)

Washington, Feb. 18.—Senators and others who attended the hearing last night on the bill providing for an Indiana-Illinois commission to take charge of the drainage situation in the Kankakee swamp district said today they thought the hearing lessened rather than enhanced the chances of the bill. Over sixty men, land owners from the district affected spoke pro and con on the bill.

Senator McCormick who introduced the bill and who acted as chairman of the committee considering it said today he would not press the bill, unless he was convinced that a majority of the people in the Kankakee watershed wanted it. He was not yet convinced, he said. McCormick said he introduced the bill at the request of Emery Andrews, a lawyer of Mattoon, Ill., who owns land in Starke county. McCormick represents Starke.

Senator Faulkner who spoke against the bill paid tribute to McCormick's fairness. Andrews defended the bill, stating that the establishment of a perpetual commission from two states would give the drainage work permanence. He said several thousand acres of land were represented at a recent meeting held in Chicago to urge passage of the bill.

Representatives Southard, Overmyer, Van Horne, Wood and Hepler, spoke against the bill. Senator Kinder opposed it. These men said that if the commission was given such powers it could spend unlimited amounts of money to build roads, bridges, telegraph and telephone lines and could tax the affected counties far into the millions for alleged improvements that would redeem swamp lands but would not help the majority part of the watershed. They said they thought it was too much power to place in the hands of five men, two of whom would live in another state.

Thomas M. Herrold of LaPorte presented a petition representing about 25,000 real estate owners affected by the project who were opposed to the bill. He said more signers were being obtained daily.

"DRYS" ASKED FOR REPORT EARLIER

Assert House Committee on Public Morals Displayed Discrimination in Its Action.

DECLARE DELAY HURT BILL

(By United Press.)

Indianapolis, Ind., Feb. 18.—Prohibition forces backing the statewide prohibition in the house were up in arms today over what they termed discrimination against them by the public morals committee of which Representative Myers of Kosciusko is chairman. The committee announced today a public hearing on the bill next Tuesday night. The "dry" forces asserted they had asked for this hearing over a week ago; that every minute of delay hurt the bill and that the delay was intentional. They would rather have had the bill reported out immediately.

The results of a government investigation into the measures required to prevent the introduction of the pink boll worm into the cotton states indicate it will be necessary to adopt the restrictions proposed and discussed at a public hearing held last May at the Agricultural department.

In brief, the measures then proposed were: 1. An order placing similar restrictions on the importation of lint cotton to those which now apply to nursery stock, so that the entry of such cotton may be confined to the northern states. 2. A quarantine order regulating the movement of imported lint cotton from the northern to the southern states. 3. A quarantine order restricting the movement of Hawaiian cotton to certain northern states.

JONES OPPOSED TO LARGE NAVY

Senator From Washington Says Government Should Not Build Single Ship This Year

LESSON FROM PRESENT WAR

Demonstrates That Little Submarine Is Very Effective—U. S. Weak in This Line

(By United Press.)

Washington, Feb. 18.—"Not a single battleship should be built by this country this year," declared Senator Jones, of Washington, in discussing the naval appropriation bill. "I will not make any fight to prevent one or two battleships being built for several reasons. The most important is that the Naval Board seems to wish to keep up a certain program and I have no wish to interfere with that. But, as to the actual value of battleships, I do not believe that the construction of one, two, three, or four battleships this year would add materially to the strength of the power of resistance of the United States.

"This great war now raging in Europe, and for that matter all over the world, has demonstrated one thing very clearly, and that is that a little submarine, costing perhaps two or three hundred thousand dollars and carrying less than one hundred men, can with comparative immunity sink a big dreadnaught of the enemy that cost \$15,000,000 and carries a crew of about 1,000 men. When struck by the torpedoes from the submarine, incidentally, the big boat becomes a mere deathtrap for her large crew, including the scores of officers which the government owning the dreadnaught had spent so much money to educate and train.

"The greatest lesson which we have learned in naval warfare so far in this conflict, therefore, is the power and effectiveness of the submarine. Yet that is where the United States is weaker than in almost any other branch, always excepting aeroplanes, where it is weaker than any where else. This country should profit by the lesson which the countries of Europe have spent so much money to demonstrate—the enormous value of the submarine to harass and pick off the big fighting ships of the enemy. We should proceed to equip our navy with a large fleet of submarines and train a large number of men in the handling of these boats, the accurate shooting of torpedoes from them.

"There is another item which should be included in the naval appropriation bill. That is a liberal allowance for the building of more colliers and supply ships for the navy. I regarded it as a disgrace that this country had to charter ships flying a foreign flag to accompany our fleet on its trip round the world because we did not have enough supply ships and colliers in the navy, or for that matter in the American registry."

GUARANTEED FOR COUGHS

A Good, Cheap, Home-Made Remedy

Money spent for the old-style, ready-made cough syrups in bottles holding only 2 to 2½ ounces is very largely wasted, because most of them are composed principally of sugar and water. Yet you have to pay the same price as if it was all medicine. Stop wasting this money. You can make a better cough medicine at home at one-fifth the cost. Merely go to the drug store named below and ask for 2 ounces (50c worth) of Schiffmann's Concentrated Elixer. Mix this with one pint of granulated sugar and one-half pint of boiling water, which makes a full pint (16 ounces). This new, simple, pleasant remedy is guaranteed to relieve the worst cough or cold. Also excellent for Bronchial Asthma, Bronchitis, Croup, Hoarseness and Whooping Cough. One bottle will make enough to last a family for months. Guaranteed here by LYLE'S DRUG STORE

Don't Pass Up the Comforts and Pleasures of Life

You have seen the museum mummy—take a bunch from him. He hasn't had any pleasure for over 5,000 years. He had his opportunity—did he get his share? Do you? Buy what you need and make life a pleasure to yourself and family. There will come a time when you can't. Ask the mummy, he knew once—did he enjoy life to the full extent as it was intended for him to do? He won't answer—it's up to you. For instance, if you need a New Storm Buggy or any other kind of a buggy, why don't you buy it and buy it now? We have plenty of them and we want to sell them. We have every style that was ever made, all colors of paint, all kinds of combinations. The man that deprives himself of all these comforts of life may leave a bigger tombstone to mark the hole he is finally forced to crawl into but he is a mummy all the years of his life. So get busy, buy yourself a buggy, buy the boy a buggy and get what pleasure you can out of life now. Next year may be too late. Don't forget our Opening on March 12-13. Come in and have a good time with us and don't forget to buy what you need to make life worth while. You will be a mummy soon enough.

WHEAT HAS SOLD FOR \$3 A BUSHEL

Continued from Page 1.
corn sold at 17¢ 20 $\frac{1}{2}$ cents a bushel, according to quality, one bushel at 18 $\frac{1}{2}$ cents and was forwarded to Buffalo at 23 cents per bushel freight—4¢ cents more than the value of the corn.

In June, 1861 cents sold at 13 cents a bushel. In 1895, regarded as a year of general depression, good brands of spring wheat flour sold at \$3.00@\$3.50 per bushel and winter wheat flour at \$2.25@\$2.65. Wheat sold as low as 48 $\frac{1}{2}$ cents a bushel and the range for the year was 18 $\frac{1}{2}$ @\$5.38. Corn sold as low as 19 $\frac{1}{2}$ cents a bushel and the range for the year was 19 $\frac{1}{2}$ @\$0.30-\$0.8 cents. Oats as low as 14 $\frac{1}{2}$ cents a bushel and the range was 14 $\frac{1}{2}$ @\$0.20 cents.

In 1896 mess pork declined to \$5.50 a barrel and the range for the year was \$5.50@\$10.85. Lard went down to \$3.05 a hundred pounds and the range for year was \$3.05@\$5.85. Short rib sides declined to \$3.05 a 10-lb. lbs and the range for the year was \$3.05@\$5.40. Live hogs declined to \$2.40 a hundred pounds and the range for the year was \$2.40@\$4.45.

ILLUSTRATED LECTURE.

There will be a moving picture exhibition and stereoptican lecture by W. R. Holder of Cincinnati at the Main Street Christian church tomorrow night at seven-thirty o'clock. The public is invited and no admission will be charged but an offering will be taken to defray expenses.

In August, 1858 good cattle at Chicago sold \$2.00@\$2.25 per hundred pounds and during the fall months receivers were unable to sell them at cost, and they had them slaughtered and sold the products in Boston in the spring the following year.

In August, 1858 spring wheat sold 48@53 cents and corn at 62@63 cents, and oats at 28 cents. Often there was a difference of fifty cents a bushel between choice winter and spring wheat. In October, 1861

EXPECT TO PUT IT UP TO THE VOTERS

Senate Democrats Plan to Conduct Referendum on State-Wide Primary at Next Election

EXPENSE PLEA FOR KILLING

(By United Press.) Indianapolis, Feb. 18.—When the senate convened today it was expected to proceed quickly with the aftermath of yesterday's direct primary fight in which the advocates of the primary were defeated.

Senator Elsner of Seymour said the senate doubtless would soon pass a referendum measure similar to the Osborn bill in the house, putting up to the voters a question similar to the following:

"Shall the General Assembly of the State of Indiana enact a compulsory state-wide direct primary election law?"

Elsner said the main reason Democrats overrode the platform pledge yesterday in killing the Rinear bill was that the primary would be an extravagance for the state. He estimated it would cost the state approximately \$240,000 for each statewide primary election.

"Why, it would cost my home county, \$2,000," he said. Elsner is a member of the elections committee.

The VanAuken primary referendum bill was favorably reported to the senate today.

NO EXTRA SESSION IS THE WORD TODAY

Wilson Said to Desire Blame For Failure of Ship Purchase Bill to Rest With Republicans.

THOUGHT MORE EXPEDIENT

(By United Press.)

Washington, Feb. 18.—There will be no extra session of congress. This was the word passed out today through the highest authorities.

The white house is favorable, it was indicated by the statements, to allow the shipping bill to go to conference for about ten days to permit passage of appropriation bills. Afterward another attempt probably will be made to force the former through but if the filibuster continues it will be the end of the bill. The president is said to be under the impression that it would have been more experienced to place the blame for the failure of the measure on the Republicans rather than to risk the uncertainty of a special session.
